

PSQB Regulatory Roundup / Annual Review

Thank you to all those who attended the Regulatory & Public Law Team's Annual Review last evening.

A largely social evening was punctuated with presentations in the following areas:

Food Standards – [Richard Wright Q.C.](#)

Inquests – [Kirsten Mercer](#)

Environment – [Simon Clegg](#)

Health & Safety – [Robert Stevenson](#)

CQC / Healthcare – Simon Connolly

Private Prosecutions – [Craig Hassall](#)

The presentations were indicative of the team's expertise and highlighted cases of particular interest along with landmark decisions over the last year.

The success of the evening however was due to those who attended as our guests and shared their recent experiences amongst old friends and new. We have received very positive feedback and as a result intend that this become an annual event.

The team also has a season of Inquest seminars approaching for which invitations will be sent out shortly. For further details please [click here](#).
